The Status Quo Fails Workers

20%

UPWORK / FIVERR FEE

14D

PAYMENT DELAY

1.4B

UNBANKED EXCLUDED

VERIFIED 2024 DATA

PLATFORM	FEE	SETTLEMENT	GMV/REV
Upwork	~19%	14+ days	\$4.0B GMV
Fiverr	20–30%	14+ days	\$391.5M rev
eBay	~15%	3–5 days	~\$85B GMV
peereep	2.5%	Instant	\$145.9M (Y1)

CRITICAL FAILURES

- ✓ Settlement delays — Freelancers wait 2+ weeks for payment after completing work
- ✓ High fees — 15–20% cuts eliminate profit margins on small contracts
- ✓ Custody risk — Platforms hold funds; if they fail or freeze, you lose access
- ✓ Unbanked exclusion — KYC requirements cut off workers in developing regions

MARKET OPPORTUNITY

\$4.4B+

Combined addressable GMV from Upwork + Fiverr alone

Three **Contract** Types. One Platform.

TASK

2.5% FEE

- Employer posts task
- Workers apply via proposal or direct join
- Employer selects & funds escrow
- Worker completes task
- Employer confirms → instant payout
- Optional: milestone-based payments

SERVICE

2.5% FEE

- Employer hires from service listing
- Worker accepts the hire request
- Employer funds escrow
- Worker completes work
- Employer confirms → payment releases
- Optional: milestone-based payments

GOODS

1% FEE

- Seller lists product
- Buyer purchases immediately
- Escrow created at purchase
- Seller ships with tracking
- Buyer confirms → instant payout

CORE FEATURES

✓ Smart contract escrow (non-custodial)

✓ Instant USDC settlement on approval

✓ Milestone-based payments (TASK & SERVICE)

✓ Dispute resolution by admin arbiters

✓ Gasless transactions (no SOL needed)

✓ Optimized Solana fees (90% lower)

Non-Custodial Smart Contracts

TASK Employer → Worker

SERVICE Employer → Worker

GOODS Buyer → Seller

ESCROW FLOW

- STEP 1

Payer Funds Escrow

USDC locked in Solana smart contract. Platform has zero access to funds.
- STEP 2

Provider Delivers

Worker completes task/service or seller ships goods. Milestones optional for TASK & SERVICE.
- STEP 3

Payer Confirms → Instant Release

USDC released to provider in ~4 seconds.
- DISPUTE

Admin Arbitration

Either party opens dispute. Admin reviews evidence. Smart contract executes decision.

PLATFORM CANNOT

- ✗

Freeze funds — unlike PayPal, Stripe, or banks
- ✗

Charge surprise fees — all fees transparent on-chain
- ✗

Hold payments for months — settlement is instant
- ✗

Fail and lock customer money — funds never in custody

SETTLEMENT SPEED

~4 SEC

vs. 14 days on Upwork/Fiverr

Unit Economics From Day One

 VIETNAM

Targeting unbanked emerging markets excluded by Upwork/Fiverr KYC walls.

Phased Expansion Strategy

1

MONTHS 1-3 • PROOF OF CONCEPT

Target: Solana developers, designers, auditors (crypto-native)

Channels: Discord, Twitter, GitHub communities

→ 100 DAU • \$500K GMV

2

MONTHS 4-9 • REGIONAL EXPANSION

Target: SEA, Latin America, Africa — 1.4B unbanked workers

Channels: Referral program, local influencers

→ 5,000 DAU • \$5M GMV

3

MONTHS 10+ • MAINSTREAM

Target: North America, Europe — fee-fatigued professionals

Channels: Content marketing, partnerships

→ 50,000 DAU • \$20M+ GMV

WHY EMERGING MARKETS FIRST

Lower CAC

Crypto-native users require less education and onboarding effort

No incumbent

Upwork/Fiverr KYC walls lock out 1.4B potential workers — zero competition

USDC adoption

USDC provides USD-stable income in volatile-currency markets

86% Fee Advantage

HEAD-TO-HEAD COMPARISON

FACTOR	PEEREEP	FIVERR	UPWORK
Fee	2.5%	20–30%	19%
Settlement	Instant	14 days	14 days
Custody	Smart contract	Centralized	Centralized
Global reach	195+ countries	KYC-gated	KYC-gated

MOAT ANALYSIS

- 01

Cost Moat

2.5% vs 20% = 8× cheaper than incumbents. Workers keep ~\$1,750 more per \$2,000 contract.
- 02

Speed Moat

Instant settlement vs 14-day delays. Cash flow advantage for freelancers in low-income markets.
- 03

Reputation Moat

Portable on-chain reviews. Reputation stays with the worker, not locked on Upwork/Fiverr.

Year 1–3 Growth Path

YEAR 1 GMV

\$100M

\$1.08M revenue · \$227K profit

CASH+ MONTH 1

YEAR 2 GMV

\$300M

\$3.65M revenue · \$2.88M profit

SERIES A OPTIONAL

YEAR 3 GMV

\$500M

\$7.07M revenue · \$5.87M profit

MARKET LEADER

KEY ASSUMPTIONS

YEAR	GMV	REVENUE	OPEX	PROFIT	STATUS
Year 1	\$100M	\$1.08M	\$0.84M	\$227K	BREAK-EVEN M1
Year 2	\$300M	\$3.65M	\$0.77M	\$2.88M	HYPER-GROWTH
Year 3	\$500M	\$7.07M	\$1.2M	\$5.87M	LEADER

Based on 6-person team post-funding. Capture rate: 1% → 3% → 5% of Upwork/eBay base. 2–5% monthly churn (emerging market typical).

\$500K Seed Allocation

OPTIONAL SEED ROUND

AREA	BUDGET	PURPOSE
PRODUCT	\$175K	iOS app; DAO governance; multi-chain
GROWTH	\$150K	Regional expansion SEA, LATAM, Africa
INFRASTRUCTURE	\$75K	Mainnet deployment, wallets, AWS scaling, security audit, network fees
OPERATIONS	\$100K	Legal entity setup (3–5 regions)

KEY POINT

With **\$227K Year 1 profit**, external funding is entirely optional. Peereep can self-fund all growth from Day 1 cash flow.

EXPOSURE

\$10B+

Global escrow market opportunity

Five **Verifiable** Tailwinds

01 • BLOCKCHAIN MATURITY

Solana: **50K+ Tx/s** production-grade throughput. USDC: **\$30B+ supply** SEC-compliant stablecoin. Infrastructure is ready.

02 • INCUMBENT MARKET SIZE (VERIFIED)

Upwork 2024: **\$4.0B GMV** · Fiverr 2024: **\$391.5M rev.** Combined \$4.4B+ from public filings. Peereep Y1 = only 3.3% of that.

03 • FEE FATIGUE (VERIFIED)

Upwork 19% · Fiverr 20–30% · eBay 15% · Amazon 17%. Peereep's **2.5% saves workers 86%** in platform taxes.

04 • REGULATORY CLARITY

USDC is SEC-compliant. Peer-to-peer marketplace does **NOT require money transmission license**. No custody = simplified compliance.

05 • UNBANKED OPPORTUNITY

1.4 billion workers are excluded from Fiverr and Upwork by KYC requirements. USDC + Solana provides USD-stable income to anyone with a smartphone — no bank account needed.

The Founders

Ghiffary Rifqialdi
CEO • FOUNDER • 60%

Built entire MVP from scratch. Paid all infrastructure costs. Vision, strategy, and investor relations.

@ghiffaryr ➔

Renard Elyon Imawanto
LEAD BLOCKCHAIN • 10%

Gasless tx, fee optimization, smart contract security hardening, AWS scaling.

@renardeLyon ➔

Linh
COO • 10%

Product maturation, QA, operations. Critical bug discovery. Representative of CEO when needed.

CTO (To Hire)
CTO • 15%

Technical leadership, smart contract security, AI integration plan, and investor relations.

Risk Addressed

⚠ SMART CONTRACT EXPLOIT

Anchor framework (production-proven). Roadmap: external audit by Certora or Areta (Subsidy Program). Active bug bounty program planned.

⚠ USER ADOPTION

Start with crypto-native segment (lower CAC). Referral incentives. Portable on-chain reputation creates switching cost from Day 1.

⚠ CHURN & RETENTION

Milestone features + on-chain reviews create high switching costs. Dispute resolution builds trust network effects. Community flywheel accelerates retention over time.

⚠ REGULATORY PRESSURE

Peer-to-peer model avoids money transmission license in most jurisdictions. USDC is SEC-compliant. Regional legal review per market.

⚠ SOLANA NETWORK RISK

Multi-chain roadmap if needed (Polygon, Arbitrum). Current Solana fees + speed justify single-chain decision today.

Join The **Future** of Work

NEXT STEPS

- 1 Live demo — 10 min, submit a real USDC transaction on devnet
- 2 Technical Q&A — smart contract review, architecture deep-dive
- 3 Due diligence — code review, financials, legal
- 4 Term sheet — 1–2 week close

OFFER

- ♦ SAFT terms
- ♦ Optional board seat for lead investor
- ♦ Exposure to \$10B+ global escrow market
